1. Call for FENS Elections / Members of the Program Committee

Dear colleagues,

At the occasion of the **FENS Governing council, members for the Program Committee for the 2022 FENS Forum in Paris** will be elected for the following domains:

Domain 1: Development and Stem Cells + Neurons and Glia: Intrinsic Properties, Cell Biology and Cell Types
Domain 2: Synapses and Plasticity
Domain 3: Sensory and Motor systems
Domain 4: Cognition and Behaviour
Domain 5: Internal States and Homeostasis
Domain 6: Disorders of the Nervous System
Domain 7: Circuit Dynamics and Oscillations
Domain 8: Computational and Theoretical Neuroscience

If you are **interested to be a candidate** please contact Sigi Huck (sigismund.huck@meduniwien.ac.at). He would be happy to discuss the procedures and with your continued interest submit the names (**by 27 October 2020 at the latest**).

2. Opportunities for ANA Grants

Please be aware that there are many **ANA grant opportunities!** For more information and application deadlines see the Young ANA's **prizes and grants overview** on our website where you can find various possibilities (Including Best Thesis Award, Otto Loewi Award and many more).
